

Prime position at an affordable price!!

Zanzibar, Mooloolaba Esplanade.

Take advantage of this current market before it bounces back - hopefully within the next 12 months - because no market stays at the bottom forever.

Astute investors realize that a change in the trend is coming and they are the people that truly capitalize on this South-East Queensland's proven beach front-row location.

In just a few years, I'm sure you would reminisce of how cheaply you purchased such a prestigious Esplanade beachfront location which is soon to be built-out!!

Vendor reduced his property to a ridiculous price - don't miss this opportunity...
